

<p>Averages: mean, mode, median and range Periodicity and order of operations</p>	<b>Math</b>
<p>1. Project: "Padurea" -Descriere literara vs. Descriere stiintifica. Elevii vor realiza un proiect cu tema "Padurea" pe carton A3/ A2, in care vor face o paralela intre cele doua tipuri de descriere discutate: descrierea literara si descrierea stiintifica. Proiectul trebuie sa contina o compunere de tip descriptiv (nu narativ) : (ex. Padurea fermecata: elevii vor descrie o padure, folosind imagini artistice si figuri de stil (imagini vizuale, auditive, etc; epitete, comparatii, inversiuni)) si o descriere stiintifica a unei paduri (ex. Padurile de conifere, Padurea ecuatoriala: elevii ofera informatii precise, situare geografica, elemente, caracteristici, etc.; limbajul este stiintific) Voi nota atat continutul cat si aspectul proiectului.</p>	<b>Romanian</b>
